III. COVERAGE OF FARMERS

1. All farmers including share croppers and tenant farmers growing the notified crops in the notified areas are eligible for coverage. However, farmers should have insurable interest for the notified/ insured crops. The non-loanee farmers are required to submit necessary documentary evidence of land records prevailing in the State (Records of Right (RoR), Land possession Certificate (LPC) etc.) and / or applicable contract / agreement details / other documents notified / permitted by concerned State Government (in case of sharecroppers / tenant farmers).

2. Compulsory Component:

All farmers availing Seasonal Agricultural Operations (SAO) loans from Financial Institutions (i.e. loanee farmers) for the notified crop(s) would be covered compulsorily. As per revised operational guidelines this provision shall override any decision taken by FIs including PACS exempting farmers from compulsory coverage of loanee farmers.

Voluntary Component:

The Scheme would be optional for the non-loanee farmers. The non-loanee farmers are required to submit necessary documentary evidence of land records prevailing in the State (Records of Right (RoR), Land possession Certificate (LPC) etc.) and / or applicable contract / agreement details / other documents notified / permitted by concerned State Government (in case of sharecroppers / tenant farmers).

As per revised operational guidelines special efforts shall be made to ensure maximum coverage of SC/ ST/ Women farmers under the Scheme. Further Panchayat Raj Institutions (PRIs) may be involved in extension and awareness creation amongst farmers and obtaining feed-back of farmers about the implementation of the Scheme

The implementing Insurance Company s elected as L1 will be responsible for taking necessary measures to ensure at least 10% incremental increase in coverage of non-loanee farmers.

Coverage of Risks and Exclusions

Following stages of the crop risks leading to crop loss are covered under the Scheme. Addition of new risks by the State Govt other than the one mentioned below, by the State Govt. is not permitted.

Prevented Sowing/ Planting/ Germination Risk: Insured area is prevented from sowing/ planting/ germination due to deficit rainfall or adverse seasonal/weather conditions.

Standing Crop (Sowing to Harvesting): Comprehensive risk insurance is provided to cover yield losses due to non-preventable risks, viz. Drought, Dry spell, Flood, Inundation, widespread Pests and Disease attack, Landslides, Fire due to natural causes ,Lightening, Storm, Hailstorm and Cyclone.

Post-Harvest Losses: Coverage is available only up to a maximum period of two weeks from harvesting, for those crops which are required to be dried in cut and spread / small bundled condition in the field after harvesting against specific perils of Hailstorm, Cyclone, Cyclonic rains and Unseasonal rains.

Localized Calamities: Loss/damage to notified insured crops resulting from occurrence of identified localized risks of Hailstorm, Landslide, Inundation, **Cloud burst and Natural fire due to lightening affecting isolated farms in the notified area.**

General Exclusions: Losses arising out of war and nuclear risks, malicious damage and other preventable risks shall be excluded.

Yield loss damage for localized calamities and post harvest losses will be assessed on the basis of individual insured farm level and hence lodging of loss information by farmer/designated agencies is essential. For remaining risks losses are due to widespread calamities. Hence lodging of information for claims by insured farmers / designated agencies for such wise spread calamities is not essential. Claims will be calculated based on the loss assessment report/average yield submitted by concerned State Govt.

2.	Chillies, Onion	5% of sum insured or actuarial rate, whichever is less.

SUBSIDY ON PREMIUM:

- **The Actuarial Premium Rate (APR)** would be charged under PMFBY by implementing agency (IA). However, farmers would be paying maximum of 1.5% (or APR whichever is less) for food crops. Oilseeds, cereals and millets and **5 %** (or Actuarial Premium Rate whichever is less) for Annual Commercial / Annual Horticultural crops.
- The difference between actuarial premium rate and the rate of insurance charges payable by farmers shall be treated as Rate of normal premium subsidy, which shall be shared equally by the Centre and State Government.

V. SUM INSURED:

The sum insured is equivalent to scale of finance, a district wise and crop wise scale of Finance for each district and each crop is enclosed. As per Annexure.

VI. LEVEL OF INDEMNITY:

Level indemnity is fixed at 80% for all the crops and for all the districts.

VII. THRESHOLD YIELD TABLES:

Threshold yield table would be based on last 7 years yield data based on crop cutting experiments less two calamity years i.e., 2014-15 & 2015-16 and will be prepared by the Implementing Agency.

VIII. SEASONALITY DISCIPLINE AND CUT-OFF DATES

The cut-off dates for collection of premium from the farmers, submission of declarations to the Implementing agency, submission of yield data by the concerned Government Department and Payment of claims is shown in the annexure.

IX. PROCEDURE FOR COVERAGE OF FARMERS & NODAL BANKS:-

1. Each individual bank branches for Commercial Banks/ RRBs shall act as Nodal branch. Each DCCB will be Nodal Banks for PACs. The concerned Lead bank and Regional offices/ Administrative offices of commercial banks/ RRBs will provide necessary guidelines to concerned bank branches and coordinate with them to ensure that all concerned branches submit the consolidated proposals to insurance companies well within the stipulated cut-off dates and also upload the soft copy of insured details in crop insurance portal. Besides, insurance company may also use the IRDA approved insurance agents/ insurance intermediaries for the coverage of non-loanee farmers only.

2. Declaration/ proposal formats to be submitted by Nodal banks/ Branches shall contain details about Insurance Unit, sum insured per unit, premium per unit, total area insured of the farmers, number and category of farmers covered (small and marginal or other) and number of farmers under other categories (SC/ ST/ others) / Women along with their bank account details etc. (bank / their branches) **as per the format envisaged / provided in the crop insurance portal.**

Loanee farmers (Compulsory coverage)

3. Whenever banks sanction loan for a notified crop in a notified area, the crop loan amount only to the extent of **Scale of Finance for notified crops** and acreage of individual notified crops of loanee farmers shall be taken into consideration for compulsory coverage, as per seasonality discipline. Based on seasonality of Crops, banks should separately calculate the eligibility of loan amount for both Kharif and Rabi seasons based on the scale of Finance and declared acreage under notified crops. Disbursing bank branch/ Primary Agriculture Cooperative Society (PACS) will prepare monthly statement of crop-wise and insurance unit-wise details of crop insurance with premium as per the seasonality discipline. Loan disbursing bank branch/ PACS will finance the additional loan towards premium amount payable by farmer for crop insurance.
4. Crop loans through Kisan Credit Cards (KCC) are covered under compulsory coverage and banks shall maintain all back up records and registers relating to compliance with PMFBY and its seasonality discipline and cut-off-date for submitting Declarations in case of normal crop loans. Bank branch will apportion coverage among insurable crops, based on acreage mentioned in loan application or on the basis of actual area sown as declared by the farmer subsequently.
5. In case of PACS under its jurisdiction shall consolidate insurance proposals / statements from their bank branch / PACS under its jurisdiction, respectively and forward the same to insurance company along with details of remittance/ RTGS towards insurance premium, in accordance with cut off dates, as specified by SLCCCI for that particular crop and season.

Non-loanee farmers (Optional coverage) through Channel partners

6. Farmers desirous of availing insurance shall fill up Proposal Form of the Scheme and submit the same to nearest bank branch or authorized channel partner or insurance intermediaries of insurance company.
7. In case channel partner is a Bank, farmers will submit duly filled up proposal form in the village branch of a Commercial Bank (CB) or Regional Rural Bank (RRB), or PACS (DCCB) with requisite insurance premium amount. Operating a bank account is essential for such cases. Branch/ PACS officials will assist the farmers in completing the insurance proposal form and provide necessary guidance. While accepting the proposal and premium, Branch/ PACS will

be responsible for verification of eligible sum insured, applicable premium rate, etc. PACS will thereafter consolidate these particulars and send them directly/ to respective Nodal Banks respectively which will, in turn, submit crop-wise and insurance unit-wise Crop Insurance Declarations in the prescribed format, along with the premium, within the stipulated time, to insurance company. However the bank branches of commercial banks/ RRBs will directly submit the consolidated proposals along with details of insured farmers in the format envisaged in the crop insurance portal within the stipulated time.

8. Non-loanee cultivators could also be serviced directly by any designated agencies, other authorized channel partners or insurance intermediaries, approved by the IRDA for the purpose and they will act as a guide and facilitator wherein they will advise them the benefits and desirability of the Scheme and guide the farmers through procedures; collect requisite premium and remit individual/ consolidated premium to insurance company, accompanied by individual proposal forms and summary details in Declarations/ Listing sheet (MIS), provide soft copy to IA and details of each insured farmer and will also upload the data directly to the crop insurance portal.
9. While accepting the Proposal and the premium from aforesaid, designated agents, other authorized channel partner or insurance intermediaries, approved by the IRDA, it shall be the responsibility of Insurance Company or its designated agents to verify insurable interest and collect the land records, particulars of acreage, sum insured, crop sown etc., and applicable contract/ agreement details in case of share croppers / tenant farmers. The designated intermediaries shall remit the premium with consolidated proposals within 7 days. However, it is mandatory that the Non-loanee cultivators serviced by the designated intermediaries should hold a bank account in order to facilitate remittance of the claim, if payable. Non-loanee Farmers (Optional coverage) - directly to Insurance companies
10. Non-Loanee farmer may submit insurance proposals personally / through post to insurance company with requisite premium. Non-loanee farmer can also avail insurance through 'on-line portal' of concerned insurance company or crop insurance portal designed by Government for the purpose. However, it is mandatory that Non- Loanee farmers, personally submitting proposals to insurance company or through crop insurance portal, should have insurable interest and submit necessary documentary evidence as proof as decided by SLCCCI (like print copy of application along with remittance of premium). The insured farmer forfeits the premium and the right to claim (if any) if the material facts furnished in the proposal form are wrong or incorrect.
11. Insurance companies retain the right to accept or reject insurance proposal(s) in case proposal is incomplete, not accompanied by necessary documentary proof or insurance premium ordinarily, within one month of receipt of proposal by Insurance Companies. If the proposal is rejected the insurance company will refund full collected premium.

Option for change of crop name

12. Farmers covered, on voluntary basis, can buy insurance before actual sowing/ planting, based on advance crop planning. However, for any reason if a farmer changes the crop planned earlier, he should intimate the change to insurance company, at least 30 days before cut-off-date for buying insurance or sowing, through financial institution/ channel partner/ insurance intermediary/ directly; as the case may be, along with difference in premium payable, if any, accompanied by sowing certificate issued by concerned village/ sub-district level official of the State. In case the premium paid was higher, insurance company will refund the excess premium.

Similarly, loanee farmers can also change the name of insured crop from the original crops submitted in the loan application but such changes should be submitted in writing to the concerned bank branch well in advance so that their proposed crops should be insured. However changes of non-notified crops to notified crops without submitting the sowing certificate is not permissible. Bank will ensure that all standard loans sanctioned for notified crops within stipulated cut-off date should compulsorily be covered.

13. Declarations/ proposals received from the Banks/ PACS after the cut-off date shall be summarily rejected and the liability, if any, for such declarations shall rest with the concerned bank. Therefore, the Banks / PACS must not receive any proposal after the cut-off date of coverage. The Banks/ PACS must also ensure that the consolidated statement along with the premium amount is remitted to the insurance company within the stipulated time, failing which they shall be responsible for payment of claims, if any to the farmers. However, any dispute in the matter may be referred to the Department by the concerned State/ Agency.
14. The concerned branches of banks and Nodal Banks/ DCCBs in case of PACS will also collect the list of individual insured farmers (both loanee and non-loanee) with requisite details like name, father's name, Bank Account number, village, categories – Small and Marginal/ SC/ ST/ Women, insured acreage, details of insured land, insured crop(s), sum insured, premium

collected, Government subsidy etc. from concerned branch in soft copy also for further reconciliation and send the same to the concerned insurance company within 15 days after final cut-off date for submission of Proposal/ Declaration to insurance company and also upload the same on the crop insurance portal. Same standard format of crop insurance portal will be utilized.

15. Insurance companies may also collect the requisite information in respect of non-loanee farmers from the channel partner in same formats. It is the responsibility of the concerned insurance companies to collect/obtain the details of the insured farmers (both loanee and non-loanee) from the bank/financial institutions/ intermediaries/ agents and facilitate the banks to upload the same on crop insurance portal.
16. Insurance Companies should also verify and be satisfied themselves about the coverage of farmers/ crops and up-load the same in their websites within a month preferably before approaching the Government to release the final installment of subsidy under the scheme.

X. ASSESSMENT OF LOSS / SHORTFALL IN YIELD

Wide Spread Calamities (based on season-end yield):

1. The Scheme operates on the basis of 'Area Approach' i.e., Defined Areas for each notified crop for widespread calamities and insurance unit is Village/ Village Panchayat or any other equivalent unit for major crops and for other crops it may be a unit of size higher than Village/ Village Panchayat level, to be decided by the State Government. State Government Department overseeing conduct of CCEs will submit yield data as per cut-off date decided by SLCCCI, along with results of individual CCEs. Yield data will be furnished to Insurance Company by State Government, in accordance with the cut-off dates fixed, and crops and areas notified, based on total number of CCEs being conducted.
2. CCEs shall be undertaken per unit area of insurance per crop, on a sliding scale, as indicated below:

Sl. No.	Level of Insurance Unit of CCEs	Minimum sample size
1	District	24
2	Group of Mandal	16
3	Mandal	10
4	Village / Village Panchayat	4 for major crops and
		8 for other crops

3. Wherever acreage is available to conduct requisite number of crop cutting experiments for yield estimation. In case acreage is not available or Crop cutting experiments are lost due to any reason, data pertaining to Mandal or Group of Mandal or any other higher unit will be considered.
4. In order to maintain the sanctity and credibility of CCEs as an objective method of yield estimation, the modalities mentioned below will be followed:
- a) ~~States shall Digitizing the CCE process scheduling protocol~~ States shall Digitizing the CCE process scheduling protocol CCEs, with necessary checks and (providing the latitude and longitude of the CCE location), date/ time-stamping and with photographs (of the CCE plot and CCE activity), is a must for all CCEs. (Refer para 7)
- b) Wherever external agencies are proposed to be used for conducting the CCEs (i.e. CCEs are out-sourced), it should be given only to the registered 'professional' agencies with adequate experience in agriculture field activities/ yield estimation. It is mandatory for these agencies to follow the digital protocol as mentioned in the previous paragraph. Services of such agencies may also be utilized for assessment of Post-harvest loss and losses due to localized risks
- c) States shall maintain 'single series' of CCEs, i.e. the same set of CCEs and Yield estimates are used both for Crop Production estimates and Crop Insurance.
- d) In instances where required number of CCEs could not be conducted due to non-availability of adequate cropped area, the yield estimate for such IUs can be generated by using methods as (i) clubbing with neighboring/ contagious units or (ii) adopting yield estimate of next higher unit, or (iii) adopting the yield of neighboring IU with maximum correlation. Priority of applicability of aforesaid three methods should be notified by the concerned States well in advance.
- e) The yield estimates at IU level shall be submitted by the State Government within the cut-off date, along with results of individual CCEs to the insurance companies.

- f) Insurance company should be given complete access to co-witness the CCEs, as also the digital images of the CCEs and relevant data in the requisite form by the State Government. (as outlined in para XXIV.2.m) A formal letter with the schedule should be given to the IAs sufficiently in advance without fail to help them mobilize the manpower if they so desire.
- g) Wherever the yield estimates reported at IU level are abnormally low or high vis-à-vis the general crop condition, the insurance company in consultation with State Government can make use of various products (e.g. Normalized Difference Vegetation Index, etc.) derived from satellite image data or other technologies to confirm the yield estimates. In case of significant differences between these two yield estimates, the matter should be referred to Technical Advisory Committee (TAC) at Centre and its decision shall be final. For resolving such cases, services of the Mahalobanis National Crop Forecast Centre (MNCFC) may be availed by TAC. MNCFC shall examine the above mentioned both the estimates and indicate their views on the yield estimate at IU for the crop season applying technology and other related parameters.

XI. USE OF INNOVATIVE TECHNOLOGIES TO RATIONALIZE CCES

With availability of a number of satellites with high resolution images orbiting the Earth, there has been a great improvement in satellite imagery products. It has been reasonably proven that satellite imagery can help in demarcating the cropped areas into clusters on the basis of crop health. This feature can be successfully used to target the CCEs within the Insurance Unit (IU). In other words, satellite imagery can help in ‘**smart sampling**’ of CCEs. While an IU with heterogeneous crop health may need standard sample of CCEs, say 4 CCEs per Village / Village Panchayat, the more homogenous IU may need a lesser sample size, say 2 CCEs. This is expected to minimize the total CCEs needed by about 30-40%. States can adopt this technique (of using satellite based remote sensing data for planning of crop cutting experiments) in generating yield estimates while following digital protocol outlined in the preceding paragraphs. For using satellite data for smart sampling, there is need to generate specific crop map. Vegetation Indices need to be computed for the cropped area. On the basis of Vegetation Index, the crop area can be categorized into poor, medium, good and very good crop health strata. Within each stratum, CCE points should be selected randomly. This can be done in consultation with MNCFC and IASRI.

- 5. Similarly Technology will also be used to remove area discrepancy in coverage & direct yield assessment.
- 6. ~~Agro-Extension, Statistical Research, Information Committee~~ Technical Advisory Committee (TAC) comprising of representatives from Indian (IASRI), State Remote Sensing Centers, National Sample Survey Organization (NSSO), Central Statistical Organization (CSO), DAC & FW and insurance company (AIC) may review sample size of CCEs from time to time. TAC shall also review any other technical matters related to conduct of CCEs and timely submission of yield data.

Assessment of Claims (Wide Spread Calamities)

- 7. If ‘Actual Yield’ (AY) per hectare of insured crop for the insurance unit (calculated on basis of requisite number of CCEs) in insured season, falls short of specified ‘Threshold Yield’ (TY), all insured farmers growing that crop in the defined area are deemed to have suffered shortfall in yield of similar magnitude. PMFBY seeks to provide coverage against such contingency.

‘Claim’ shall be calculated as per the following formula:

$$\text{Claim Insured} = \frac{(\text{Threshold Yield} - \text{Actual Yield})}{\text{Threshold Yield}} \times \text{Sum}$$

Where, threshold yield for a crop in a notified insurance unit is the average yield of past seven years (excluding a maximum of two calamity year(s) as notified by State Government) multiplied by applicable indemnity level for that crop.

8.	<u>Illustration:</u>							
	In table below, assumed yield of wheat for the last 7 years is given for							
	insurance unit area of “X”. Calculation of TY for Rabi 2014-15 season is as under							
	Year	2008-09	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15
	Yield(kg/ha)	4500	3750	2000	4250	1800	4300	1750

The years of 2012-13 and 2014-15 were declared natural calamity years.

Total of yields of seven years is 22350 kg/ha and that of two worst calamity years is 3550 kg/ha i.e. (1800+1750). Therefore according to the provision, average of past seven years excluding maximum two calamity years will be(22350–3550=18800/5) i.e., 3760 kg/ha. Hence, threshold yield at 90%, 80% and 70% of indemnity levels will be 3384 kg/ha, 3008 kg/ha and 2632 kg/ha respectively.

However, in instances where requisite number of CCEs could not be conducted due to non-availability of adequate cropped area, the yield estimate for such insurance units can be generated by

1. Clubbing with neighboring / contiguous unit or
2. Adopting yield estimate of next higher unit or
3. Adopting the yield of neighboring insurance unit with maximum correlation.

The priority of these methods would be in the order of 1, 2 & 3.

XII. ON ACCOUNT PAYMENT OF CLAIMS DUE TO MID-SEASON ADVERSITY

1. It is proposed to provide immediate relief to insured farmers in case of adverse seasonal conditions during the crop season viz. floods, prolonged dry spells, severe drought etc., wherein expected yield during the season is likely to be less than 50% of Threshold yield.
 - a) **Eligibility Criteria:**
 - i. All notified Insurance Units would be eligible for “ON ACCOUNT” payment only if the expected Yield of the affected crop during the season is less than 50% of threshold yield.
 - ii. The provision is invoked by the State Government through damage notification based on the proxy Indicators.
 - iii. The provision could be invoked for a specific crop or group of crops in Notified Insurance Unit, depending on fulfillment of laid down conditions.
 - iv. Insurance company may decide the quantum of likely losses and the amount of ‘on-account’ payment based on the joint survey of Insurance Company and state government officials.
 - v. Only those farmers would be eligible for financial support under this cover who has paid the premium / the premium has been debited from their account before the damage notification by the state government invoking this provision for compensation.
 - vi. Maximum amount payable would be 25% of the likely claims, subject to adjustment against final claims.
 - vii. If adversity occurs within 15 days before the normal harvest time, this provision will not be invoked.
 - b) **Proxy-Indicators:** Indicators to be used for loss intimation could be rainfall data, other weather data, satellite imagery and crop condition reports by district level state government officials, supported by media reports. The State’s notification should also spell out all the necessary details in this regard.
 - c) **Loss assessment procedure:**
 - i. Joint committee of State Government and the insurer for assessment of crop damage, has to be formed and notified before start of the crop season by the SLCCCI for each district.
 - ii. This Joint Committee shall decide the eligibility for on-account payment based on the weather data (available AWS notified by the Government) /long term average rainfall data/satellite imagery supported by estimated yield losses at notified Insurance unit level. Loss intimation order has to be issued within 7 days from the adverse seasonal event.

2. **Illustration**

District 'A' has been affected by floods having 100 insurance units under Crop 'X'. Out of which 50 insurance units were severely affected and as per the weather indicators / agro-met data, it has been assessed that 30 insurance units could have yield loss of more than 50% (compared to the threshold yield). Out of these 30 insurance units, estimated yield loss for 5 units is 80% (Category-I), for another 10 units, it is 70% (Category-II) and remaining 15 units, it is 60% (Category-III) of normal average yield. As per declarations received, if sum insured for notified areas in Category-I, Category-II and Category-III is Rs. 1 crore, Rs. 2 crore, and Rs 3 crore, respectively, then likely total claims will be Rs. 80 lakh, 140 lakh and 180 lakh, respectively. Hence on-account claims upto 25% shall be Rs. 20 lakh, 35 lakh and 45 lakh, which will be released during the season subject to receipt of premium subsidy.

XVI.a. . Acreage discrepancy

Some areas in the past have reported excess insurance coverage vis-à-vis planted acreage, leading to over- insurance. Ideally the discrepancy should be handled at farm level to protect the interest of farmers with genuine insurance coverage. All suitable measures are being taken by concerned stakeholders for de duplication with the help of Aadhaar Number, land records, banks records, revenue records and proposal / loan application of insured farmers. The details of individual insured farmers are being collected on National Crop Insurance Portal for de duplication. However, in the absence of digitized farm records on a GIS platform and its integration with the Portal, it would be cumbersome to physically verify each farm when the reported discrepancies are comparatively large compared to the sown areas. Moreover, the scheme also covers the risk of prevented sowing/germination failure which is not being included in sowing areas furnished by the State Government for arriving of sown area of crop the during the season. State wise List of such major crops will be notified by DAC&FW in consultation with MNCFC from time to time before beginning of every season.

Under the scheme, notified crops are being insured by the Insurance companies on the basis of actuarial premium rate, hence, it is not their prerogative to reduce the Sum Insured and resultant claims on the application of ACF. However, to rationalize the government subsidy, it the responsibilities of all concerned stakeholders including farmers and financial institutions to insured the crop which farmer actually intend to sow/actually sown. Option to change the insured crop has also been provided under the scheme for reporting of crop(s) actually sown for the insurance. There is also a provision to indemnify the crop losses due to localized perils on the basis of survey of individual plot/field under insured crops. Any wrong reporting of insured crops may lead to forfeiting of claims, if the crop actually sown and insured will be different.

Area Discrepancy will be applied only to those major crops for which Normal area sown data at the Block/Taluka level shall be provided by MNCFC based on the remote sensing data etc after factoring the areas remains unsown and failed germination/plantation due to adverse climatic conditions and shall be made available on National Crop Insurance Portal. No other data from any source including State Govt. will be considered.

However, any mass irregularities/anomalies in insuring of excess area i.e. more than the published cultivable area at Taluka level should compulsorily be brought to the notice of DAC&FW, in writing after cut off date of enrolment but before the period specified for reconciliation with banks along with facts/documents and list of bank branches etc so that the same may be examined by the Government and rectified by concerned bank itself before finalisation of business Statistics for the season on Portal.

Decision of GOI in applicability of discrepancy in insured area shall be binding on all.

If the difference between insured area and sown area provided by MNCFC is >30% at Block/Tehsil/ Taluka , all IUs of such Block/Tehsil/ Taluka will fall under acreage discrepancy category and should be treated as having 'excess' insurance coverage.

Data on application of ACF shall be uploaded on National Crop Insurance Portal.

Accordingly excess insured area shall be treated as un-insured and corresponding farmer's premium will be forfeited and the same will be surrendered to Technology Fund of GOI and may be utilized for leveraging technology in PMFBY for improvement of technology/research/Impact assessment etc and towards assistance to States for cost of incremental CCEs.

Premium subsidy refunded by ICs due to application of ACF shall be refunded to Central/State Govt. in ration of 50:50

Publicity and Awareness:

Adequate publicity needs to be given in all the villages of the notified districts/areas. All possible means of electronic and print media, farmer's fair, exhibitions, SMS, short films, and documentaries shall be utilized to create and disseminate awareness about provisions and benefits of the Scheme among the cultivators and the agencies involved in implementing the Scheme.

Agriculture/ Cooperation Departments of the State shall work out appropriate plan for awareness generation and publicity on an on-going basis from **three months** prior to the start of coverage period. Similarly, Insurance Companies will conduct Publicity and Awareness immediately on receipt of award of work.

All the publicity material/ information should necessarily be uploaded on the National Crop Insurance Portal along with coverage/frequency/ duration date etc.

The State Govt./ UT in collaboration with Insurance Companies shall also chalk out plan for capacity building of the associated agents, banks etc for effective implementation of the Scheme and organize training workshops/ sensitization programme for them in association with participating Insurance Companies.

Insurance company should spend 0.5% of the total gross premium for publicity expenses at the field level and the corresponding details should be submitted to GOI and State govt. at the end of every season. In case of expenditure in this category is less than 0.5% of Total Gross Premium, the IC shall deposit the difference in Technology fund within 3 months of cut off date for enrolment.

Service Charges

To Banks

Bank and other financial institutions etc. shall be paid service charges @ 4% of the farmer's share of premium by Insurance Company as generated from the Portal and within the 15 days of finalization of business statistics. Rural agents engaged in providing insurance related services to farmers may be paid appropriate commission as decided by Insurance Company, subject to cap prescribed under IRDAI regulations. If there is delay in payment of service charges by Insurance Company beyond 15 days of finalization of business statistics, amount needs to be paid with interest @12% p.a.

Even if the farmer's share of premium is contributed/financed by the concerned State Govt. the applicable service charges shall be paid by the concerned Insurance Company only.

No service charges will be payable to the concerned bank/branch for the applications for which any anomaly/deficiency/misrepresentation of details/data is found.
